**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 16-19 and 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Penn et al US Patent 6,758,860 B1

Penn et al discloses a stent having serpentine circumferential bands connected one to the other, the bands include first serpentine circumferential bands (350) and second serpentine circumferential bands (360). The first and second bands are connected by a plurality of longitudinal connectors (370).

Regarding claims 18 & 19, see Fig. 4.

Claims 16, 17 and 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Allen et al US Pub. 2001/0016770.

Allen et al discloses a stent having serpentine circumferential bands connected one to the other, the bands include first serpentine circumferential bands (58) and second serpentine circumferential bands (3). The first and second bands are connected by a plurality of longitudinal connectors (50).

Claims 25-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Berry et al US Patent 6,231,598 B1.

Berry et al discloses a stent having serpentine circumferential bands connected one to the other, the bands include first serpentine circumferential bands (14) and second serpentine circumferential bands (21). The first and second bands are connected by a plurality of longitudinal connectors (36).

Regarding claim 18, see Figure 5 showing the different thickness.

Regarding claim 23, the first length is structure element 15 (see Fig. 1); the second length is structure element 36.

Regarding claim 25, the first band is structure 21 and the second band is structure 14.

Regarding claim 31 and 32, see Figure 3.

#### ***Allowable Subject Matter***

Claims 1-15 are allowed.

Claim 24 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 16-24 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's arguments filed August 25, 2004 have been fully considered but they are not persuasive.

Art Unit: 3738

Regarding claims 25-37, the Applicants' representative did not object to the rejection, therefore, the rejection is proper and maintained.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
